## SUMMARY

Self-driven, software engineer and tech entrepreneur with a passion for creating intuitive and user-friendly frameworks using cutting edge technology. Seeking an entry-level position at a company where I can utilize my skills and continue to learn and grow in the field of software development.

## SKILLS

- Basic knowledge in HTML, CSS, Bootstrap, and JavaScript.
- Solid understanding in blockchain.
- Basic experience with web3 applications.
- Git and version control

## PROJECTS

- **Accountati.com** - Simplifies invoices and expense tracking, helping users save time and money in the cloud.
- **Varavyshka.com** - Russian jewelry business dedicated to handcrafting one-of-a-kind pieces.

## WORK HISTORY

### CRITICAL FACILITIES TECHNICIAN

09/2021 to 06/2022

#### T5 Data Centers | San Antonio, Texas

- In this role, job responsibilities were ensuring proper operation of all electrical, mechanical, and fire/life safety equipment on campus. This included performing operations such as isolation and startup of various systems including medium/low voltage distribution panels, breakers, UPS, generators, STS, ATS, AHU, DX, chillers, CRAC units, fuel, BMS, and EPMS systems.

### ELECTRO-MECHANIC

01/2018 to 09/2021

#### CN Wire | Santa Teresa, New Mexico

- As an electro-mechanic, my job responsibilities included working with various electrical components, as well as maintaining, repairing, installing, and testing three phase motors, commutators, and other electrical equipment. This position also included updating manufacturing records and compiling installation reports through the use of computerized maintenance management systems and SAP.

## **QUALITY ASSURANCE, WIRING TECHNICIAN, INSPECTOR**

*01/2016 to 01/2017*

### **Schneider Electric | El Paso, Texas**

- Across three positions, my responsibilities included identifying discrepancies between customer requirements and finished products, testing and troubleshooting complex low voltage electronics and electrical switchgear while comparing colors, shapes, textures, and grades of materials to verify conformance to standards. Additional duties included improving quality assurance procedures to minimize errors and increase overall effectiveness of inspections, adhering to standardized software quality assurance best practices.

## **INDUSTRIAL MAINTENANCE MECHANIC**

*01/2015 to 01/2016*

### **Delfingen | El Paso, Texas**

- As an industrial mechanic, job duties entailed performing maintenance on powered industrial equipment, including mechanical, hydraulic, pneumatic, and electrical systems. This included corrugators, compression, dust, and vacuum systems, as well as precision cutters, pullers, and cooling systems. The maintenance includes tasks such as changing oil, replacing damaged parts, and performing preventative maintenance.

## **INDUSTRIAL MAINTENANCE MECHANIC**

*10/2012 to 01/2015*

### **Dal-Tile | El Paso, Texas**

- This role involved maintaining automated hydraulic, electric, heating, and pneumatic systems, as well as operating material processing of silos, spray driers, ball mills, and vibrating screens. Other responsibilities for repairs included boiler systems, water treatment, compressors, dust collection, power distribution panels, inverter motor control, contractors, relays, transformers, photocells, proximity, PLCs, SCADA, and automatic guided vehicles.

## **TELECOMMUNICATIONS TECHNICIAN**

*01/2012 to 10/2012*

### **Trans America Communications | El Paso, Texas**

- In this role, primary responsibilities were installing and establishing various types of communication equipment including routers, switches, fiber optics, and cabling. Additional duties included setting up phone lines, patch panels, server racks, and other communication equipment for internet connectivity.

## **EDUCATION**

### **Bachelor of Science | Electrical Engineering: Fields & Devices**

#### **The University of Texas At El Paso, El Paso, TX**

- Discontinued to pursue computer science.

○ **Associate of Science** | Accounting And Finance

**University of Texas at Austin, Austin, TX**

- Discontinued to explore decentralized financial systems.

○ **Bachelor of Science** | Computer Science

*EXPECTED IN 01/2025*

**The University of Texas At El Paso, El Paso, TX**

- Concentration: Cyber Security
